ASSEMBLY BILL

No. 759

Introduced by Assembly Member Karnette
(Coauthor: Senator Alquist)

February 22, 2007

An act *to amend Section 1569.84 of, and to add Section 13113.11 to, the Health and Safety Code, relating to fire protection.*

LEGISLATIVE COUNSEL'S DIGEST

AB 759, as amended, Karnette. Fire protection: residential care facilities for the elderly.

Existing law establishes the State Fire Marshal within the Department of Forestry and Fire Protection.

Existing law requires local fire enforcing agencies or the State Fire Marshal, whichever has primary jurisdiction, upon request of a prospective applicant for a license to operate specified facilities, including residential care facilities for the elderly, to conduct a reinspection of the facility prior to the final fire clearance approval. Existing law authorizes a specified fee to be charged for the preinspection.

Existing law prohibits the State Fire Marshal or any local public entity from charging a fee to a residential care facility for the elderly servicing 6 or fewer persons for enforcing fire inspection regulations.

This bill would, on and after July 1, 2009, require ~~a~~ local fire enforcing ~~agencies~~ agency or the State Fire Marshal, whichever has primary jurisdiction, to conduct an annual inspection of all licensed residential care facilities for the elderly *with 6 or fewer residents* within ~~their~~ *its* jurisdiction. The bill would provide that these annual inspections shall occur not less than 9 months and not more than 15 months following the previous inspection, unless a violation is detected during the annual inspection. This bill would require the inspecting agency to report violations that are not corrected within 60 calendar days to the State Department of Social Services.

This bill would, *notwithstanding existing law*, require the inspecting ~~agencies~~ agency to charge and collect a fee *for all inspections after the initial inspection*, as prescribed, from the owner of the facility to cover the costs of performing the inspections.

This bill would require the State Department of Social Services to notify the appropriate local fire enforcement agency or the State Fire Marshal when a facility subject to inspection is added or when a change in a facility's status occurs. This bill would also require the State Fire Marshal, in cooperation with the State Department of Social Services, to develop and adopt an inspection checklist with certain guidelines to be utilized by the inspecting agency in its annual inspections. This bill would additionally require the inspecting agency to make the checklist and guidelines available to residential care facilities for the elderly prior to the annual inspection, and to provide the facility with a consultation, at the time of inspection, regarding the checklist and guidelines.

By requiring local agencies to conduct these annual inspections, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.
